Hiring Manager
Oracle

Dear Hiring Manager,

As a recent graduate with a Bachelor's degree in Information Technology, I am a dedicated and enthusiastic individual with a passion for technology and a drive to make meaningful contributions in the IT industry. Throughout my academic journey, I have developed a strong foundation in various aspects of IT, including software development, networking and database management.

My coursework provided me with hands-on experience in programming languages such as Java, Python, and SQL. Additionally, I actively engaged in collaborative projects that sharpened my problem-solving skills and fostered a mindset of continuous learning.

My internship experience at Marklance Infotech further solidified my understanding of Python concepts and allowed me to apply theoretical knowledge to real-world scenarios. During this time, I gained practical exposure to Python, Flask and Django, which enhanced my technical proficiency and professional development.

I am deeply motivated by the rapid evolution of technology and its potential to solve complex problems and improve lives. I am particularly drawn to opportunities that allow me to leverage my skills and knowledge to contribute to innovative projects and drive positive change. With a keen eye for detail, a collaborative spirit, and a commitment to excellence, I am excited to embark on a career where I can continue to learn, grow, and make a meaningful impact in the field of Information Technology.

Sincerely,

Tess Thomas
